

Practical information – how to get involved?

Good effects of bilateral partnerships 2009- 2014

Norwegian partners in 115 projects

- business projects and NGO projects

Shared results and wider effects in most projects

Contribution from Norwegian partners:

- Sector related know-how
- Efficient production processes expertise
- R&D specific support (material technology etc.)
- Training (industrial design, quality norms etc.)
- Corporate Social Responsibility, Health/Safety/Environment
- LEAN production
- Awareness raising campaigns

Spin-off: Norwegian suppliers of technology and services

How to find a partner?

- Make use of matchmaking/speeddating possibilities
- Travel grant schemes
- Use our partner search database
<http://www.innovasjon Norge.no/eea-norway-grants> -> under **find a partner** you can register a profile

Find a partner

List of registered profiles

[Check out the list of already registered profiles \(updated November 1st, 2018\).](#)

Please keep in mind that the submissions have not been checked for quality, eligibility or potential success of the described project idea.

See also the [Research partner database](#) established by the Research Council of Norway: This data base may be interesting for companies looking to participate in research projects under the EEA Norway Grants.

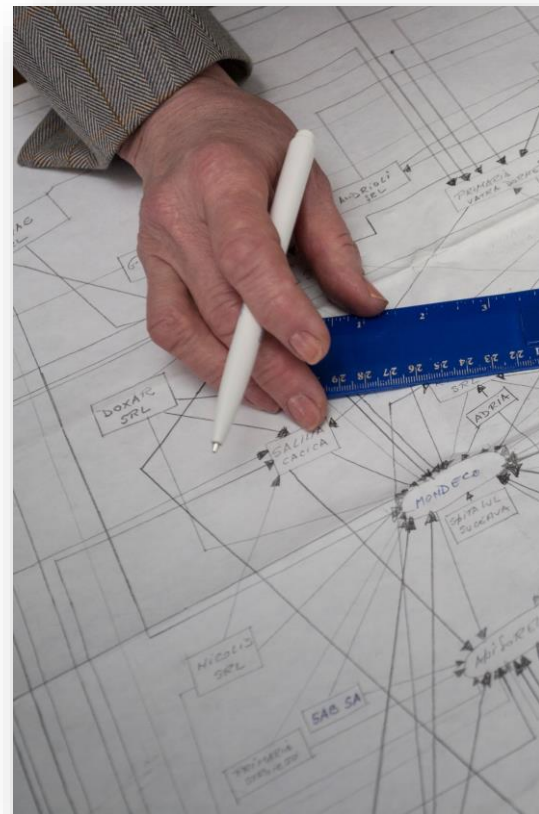

On this page you can submit your partnership proposal, which will be made available to the public on this website.

Make sure you have read our hints about [Who can apply](#), so your partnership proposal has a greater chance to succeed.

Please also note that the submission and publication of the proposal happen upon request by the submitting party. The latter is responsible for the content. Innovation Norway does not bear any responsibility for the quality, eligibility or success of the described project idea.

Advice for Partners

1. **Facts about the Calls** – look up the official Programme web-site and study available documents
2. **Be prepared** – know as much as possible about the Programme, what you have to offer, and the opportunities
3. **Get to know your future partner – the Applicant** - well before you sign a Partnership Agreement. You can apply for **travel support**
4. **Make sure you have the necessary resources (financial, technical, people, time)** required to contribute to a successful project completion
5. Have a responsible approach towards **principles of good business practice**
6. **Make sure the project will contribute to the expected outcomes and outputs of the Programme**
