

Reykjavík 23 October, 2019

Reykjavik University

Short presentation at seminar on opportunities in renewable energy, geothermal, energy efficiency etc. in Poland, Romania and Croatia

Dr. Einar Jón Ásbjörnsson

About and Ambition

Reykjavik University is small modern university

- ❑ Students 3 800, permanent faculty 250
- ❑ Engineering, computer science, business and law

Our goal is to create and disseminate knowledge so as to improve the quality of life for individuals and societies with ethics, sustainability, and responsibility, as our guiding principles.

Sustainability Institute and Forum (SIF)

The objective of SIF is to foster research and education in sustainable development focusing on the 17 UN Sustainable Development Goals (SDGs). To this purpose, SIF will be inclusive and open to external ideas in order to account for the interdisciplinary nature of the SDGs.

Current project

Research task to promote geothermal energy in the Balkans

- ❑ Establish university links between Reykjavik University and the Universities in Serbia, Romania, and Bosnia.
- ❑ Establish a link between Icelandic Industry and local Balkan stakeholder
- ❑ Continue the research activities on geothermal composition and energy potential of geothermal sources
- ❑ Perform a stakeholder analysis in order solution to facilitate the collaboration between Icelandic companies and Balkan stakeholders in order to realize geothermal energy projects in the Balkans

Proceedings World Geothermal Congress 2020
Reykjavik, Iceland, April 26 – May 2, 2020

The Chemical Composition of Geothermal Hot Springs as an Indicator of Various Geologic Sub-surfaces in Iceland and Serbia
